SUMMARY

Backend Developer with 1 year of experience specializing in **Java (17/21)**, **Spring Boot**, **REST API** and **Event-Driven Architecture**. Proven track record in optimizing database performance by 25% and building scalable ETL pipelines for high-concurrency environments. Passionate about Cloud-Native development and clean code principles.

TECHNICAL SKILLS

Languages/Back-end: Java (8/11/17/21), SQL, Spring Boot, Spring Security (OAuth2/JWT), Hibernate, JPA
Data & Messaging: PostgreSQL, MySQL, Apache Kafka (Event-Driven), ETL Pipelines
Tools & DevOps: Docker, Kubernetes, Jenkins CI/CD, Maven, Git, Postman, Swagger
Frontend/Web: ReactJS, Redux, RESTful APIs, JSON/XML

EXPERIENCE

Avendum Technology Private Limited

Development Associate (Java Backend)

Gurgaon, HR

Feb 2025 – Present

- Architected enterprise-grade backend for the **MIDS platform** using Java and Spring Boot, automating network asset tracking for **Airtel** and reducing manual overhead by 40%.
- Engineered real-time data streaming pipelines using **Apache Kafka**, handling 10k+ asset lifecycle updates hourly with 99.9% data consistency across services.
- Integrated **Spring Security** with RBAC and JWT, reducing unauthorized access attempts and securing sensitive infrastructure data for 500+ departmental users.
- Improved API throughput by 25% by optimizing **Oracle** indexing strategies and implementing custom Hibernate query caching.

Netlink Software Private Limited

Java Developer Intern

Bhopal, MP

Sep 2024 – Dec 2024

- Engineered scalable backend modules using **Scala and Play Framework**, focusing on non-blocking I/O for high-concurrency enterprise client data.
- Developed a custom **ETL tool** in Java/Maven to parse unstructured Tally Prime data, achieving 98% migration accuracy for financial records.
- Utilized **Apache Spark** (RDDs/DataFrames) to process 500k+ daily records, slashing data integration latency by 35%.
- Collaborated in an **Agile/Scrum** environment to deliver RESTful endpoints, ensuring seamless JSON/XML communication with React-based analytics dashboards.

PROJECTS

Enterprise Ticket Management System | Spring Boot, Kafka, MySQL, Hibernate, JPA

Dec 2024 – Jan 2025

- Engineered a high-concurrency ticketing engine featuring **Automated Priority Routing** and real-time lifecycle tracking using **Spring Boot**.
- Resolved database race conditions and reduced contention by 40% by implementing **Optimistic Locking (JPA)** and optimizing **HikariCP** connection pooling settings.
- Designed an **Event-Driven Notification** architecture using **Kafka**, decoupling core logic from alerting services to ensure 99.9% message delivery via custom retry-topics.

PharmaFinder - Location Based Search | Java, Spring Boot, Maps API, MySQL

Mar 2024 – Jun 2024

- Developed a real-time pharmacy discovery tool using **Maps Distance Matrix API** for proximity-based sorting.
- Implemented secure user onboarding with **Java Mail API** for OTP verification, increasing user registration success rate by 20%.

EDUCATION

Sagar Institute of Science and Technology

Bachelor of Technology in Computer Science (CGPA: 7.65/10)

Bhopal, MP

Aug 2021 – May 2025

Saraswati Vidhya Mandir Hr. Sec. School

Higher Secondary Education (MPBSE, 80.00%)

Bhopal, MP

Mar 2021
